

STONY PLAIN SUN.

VOLUME NINE.

STONY PLAIN, ALBERTA, THURSDAY, OCT. 25, 1928.

Whole Number 429

U. F. A. Convention for 1929 to Be Held in Edmonton.

It is planned to have the next annual convention of the United Farmers of Alberta in Edmonton, providing that suitable arrangements for a hall, broadcasting and such things can be made.

A committee from the U. F. executive at Calgary will interview Edmonton's board of trade regarding arrangements for the convention.

The date has not been set for the Farmers' annual convention. As a rule, it has been held the second week in January.

Public Notice!

Cottage Lake, situated in sec. 30 Tp. 51 Rg. 1w5, and known as Edmonton Beach, was closed to all fishing for a period of three years, or until Nov. 20, 1928. The Department of Fisheries has considered it advisable to extend this closed period, and has therefore extended this closed period to May 15, 1929.

No fishing of any kind is therefore permissible in this lake until May 15, 1929. Anyone caught fishing in this lake before that date will be prosecuted.

R. T. Rodd,
Inspector of Fisheries,
District of Alberta.

LOCAL NEWS.

Mr Chas Schultz and Master Eddie have returned to their home in Vancouver.

Mr Val Kutak Jr. intends moving with his family to the Coast, and is holding a clearance sale of stock, implements and household goods, Friday, Nov. 2.

Bob Stoker returned Friday from a trip to his old home State.

Mr F Horn has taken over the butcher business on First street, until recently operated by Mr Anton Baer, the latter having moved to Entwistle district.

Sommerfield & Mayer are installing a steam-heating system in their Service Garage, making this the equal of any in the City, and the most up-to-date hereabouts.

The Stony Plain Hardware has the contract for installing a lighting plant in the hotel at Gainford.

If your eyes bother you, or you suffer from headaches, why not have your eyes attended to by an expert? M M Mockenburgh, eye specialist, 10159 101st St., Edmonton.

Thanksgiving Day.

The Canadian Thanksgiving Day will fall, this year, on Monday, November 12th, which will also be observed as Armistice Day. The date has been announced from Ottawa as a Dominion holiday, and will be gazetted in each of the provinces to make the observance uniform thruout Canada.

Rifle Club's Big Shoot

The annual shooting contests of Stony Plain Rifle Club took place on Friday last. A goodly number were present and all the contests were keenly contested. In spite of the poor shooting weather, some good scores were made.

The smoker in the evening drew a large patronage, as guests of the club. The list of entertainers included the name of Sandy Macpherson, the rolled oats specialist. Sandy was at his best, both in his solos and the choruses. As the evening's proceedings proceeded, it was quite evident this was going to be one of Stony's historic enjoyable nights; and this turned out to be correct. During the intermission a story spread that the Chairman had had an accident, but this turned out a canard. All left for their homes in a happy state of mind.

LOST, in Wudel's Hall, Friday night, one hat initials "S. T." Phone 1710.

LOST, Friday night, one gold watch, near Joe Miller's tie post, Elgin movement. Reward on return to Sun Office.

FOR SALE, Team of Horses, harness, wagon, box and seat, very reasonable. Th Wudel. 29

The Grading of Wheat

The heavy frosts which descended upon Western Canada during the third week of August, had a most disastrous effect upon a large portion of the wheat crop of the prairie provinces, with a resultant lowering in grades which, in the aggregate, means a loss of many millions of dollars to the farmer-producers of the west. Just how great the loss is will probably never be accurately known, but thousands of individual farmers will, more or less correctly, estimate what it means to them. Volume of production remains, the greatest in the history of the country, but grades, and consequently prices, are seriously affected.

Under the circumstances it is but natural that an outcry is raised against the whole system of grading, and some very rash statements are indulged in. The farmer who gets Number Three feels he ought to have received Number Two, and the man who is given Number Four contends he ought to have had Number Three, and so on down the line. This is but natural, but the result is that elevator operators, whether in the Pool or line elevators, are charged with taking advantage of the situation and grading too low. Governments, both federal and provincial, are held responsible for the system of grading in vogue, although, as a matter of fact, provincial governments have nothing to do with grading, which, as a matter of trade and commerce falls solely within the jurisdiction of the Dominion. If there was any truth in the charge that the Liberal Government, in Saskatchewan, is responsible for low grading this year, then the Farmer Governments in Manitoba and Alberta are equally responsible.

The truth of the matter is, of course, that neither Liberal, Conservative, Progressive nor United Farmer Governments are responsible. It may be that the present system of grading requires revision but even that cannot be determined offhand. Canadian wheat occupies an enviable reputation in the markets of the world, and because of that reputation commands a good price. That reputation is based on the quality of our wheat, and that quality is guaranteed through our system of uniform Government inspection and grading.

It may well be that in a year like the present, a relaxation in grading would result in a larger proportion of our wheat being placed in higher grades, and better prices received by the growers. On the other hand, a lowering in the standards might very easily result in a general lowering of all prices, so that the final result would be much the same.

But assuming that this did not happen this year, the undoubted effect would be injurious to the reputation of Canadian wheat and any gain derived this year would be more than offset in other years because of the poorer reputation for all our wheat that would result. The reputation of Canada's wheat abroad is the biggest asset we have in the British and European markets, and it must be retained at all hazards. And to tamper with grading solely in order to meet climatic conditions in any one year would be fatal to that reputation.

There is this, however, to be considered. Does frost, which mars the appearance of the wheat kernels, and results in lower grading, actually impair the milling qualities of that wheat, and the baking properties of the flour made from such wheat? In other words, does frost affect the real quality of the wheat to the extent that our present standards of grading would indicate? If it does not, then it would seem that our grading need not be quite so drastic without affecting the established reputation of our wheat.

This, however, is a question that can only be determined through study, research and experimentation. It cannot be decided in a day or two, or settled by legislative enactment. The Dominion Government is fully alive to the importance of this question, and the Government Research Laboratory, working in conjunction and full co-operation with all Western universities, is engaged in the task of ascertaining the actual facts and the full truth. In this important work the three provincial governments, the Wheat Pools, and the United Farmer organizations are all assisting.

Pending the result of such searching investigations, it is a mistake and unapologetic for anybody to seek to inflame public opinion out of an unfortunate condition resulting from the vagaries of the weather which no man, or body of men, can direct or control. Rather should every man and every organization having the best interests of Canada at heart do what lies in their power to assist in this great work to the end that all may benefit.

It is never too late to learn; never too late to seek knowledge. One of the finest epigrams ever placed on a tombstone was that placed over the grave of John Richard Green, the famous historian. It said "He Died Learning."

Wife—Do you realize that twenty-five years ago today we became married?

Absent-minded Professor—Twenty-five years? You should have reminded me before. It's certainly time we got married!

Sour Stomach

Just a tasteless dose of Phillips' Milk of Magnesia in water. That is an alkali, effective, yet harmless. It has been the standard antacid for 50 years among physicians everywhere. One spoonful will neutralize at once many times its volume in acid. It is the right way, the quick, pleasant and efficient way to kill the excess acid. The stomach becomes sweet, the pain de-

parts. You are happy again in five minutes.

Don't depend on crude methods. Employ the best way yet evolved in all the years of searching. That is Phillips' Milk of Magnesia.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any druggist.

Nansen Believes Arctic Route Most Favorable

Explorer, Planning Zeppelin Flight Between Europe and United States

A Zeppelin flight between Europe and the U.S. by way of the Arctic regions is in order to determine the practicability of that route is now being actively prepared by a committee under the chairmanship of Fridtjof Nansen, noted polar explorer. It is believed that weather conditions will be more favorable in the Arctic than over the regular North Atlantic course.

The Zeppelin will be commanded by Captain Walter Bruns, secretary of the Society of Arctic Research. It is understood that the coming aeronautic convention in Berlin will fix the date for the Arctic flight, which probably will be next May or June.

Three Russian scientists, Prof. Wiese, meteorologist; Prof. Schmidt, biologist; and Prof. A. Ischenko, microbiologist were in Koenigsberg recently, en route to Berlin, and discussed plans for the expedition.

WEAK AND NERVOUS

A Condition Due To Watery Blood—Easily Corrected Through the Use Of Dr. Williams' Pink Pills.

This, pale girl lacks the power of resistance to disease that rich, red blood gives. Nervous breakdown is the result of thin blood. So is indigestion, headaches, backaches and many other troubles. Girls suffering from thin, impure blood need just the help Dr. Williams' Pink Pills can give. For many years Dr. Williams' Pink Pills have been a world-famous blood-builder and nerve restorer. They actually make new, rich, red blood which imparts new vigor and life to all the organs of the body. Their first effect is usually shown by an improved appetite; then the spirits revive and restlessness at night gives way to health restoring sleep. For sufferers from anaemia, nervousness, general weakness or physical exhaustion Dr. Williams' Pink Pills are a restorative of the utmost value. This is proved by the experience of Miss Sarah A. McEachern, R.F. No. 3, Brule, N.S., who says:—"About three years ago I became very weak and nervous. I had pains in my side and back. I also had frequent pains in the back of my head and neck. I was very pale and very weak. I had attacks of nervous irritability, and at times I was so nervous that life seemed hardly worth living. While in this condition a friend strongly advised me to take Dr. Williams' Pink Pills. I began taking these pills and used them for about two months with the result that there was such an improvement in my condition that friends would ask me what I was taking, and I was only too glad to tell them I was Dr. Williams' Pink Pills. I am now enjoying good health and am glad to give this statement for the benefit it may be to some other sufferer."

You can get these pills from any medicine dealer or by mail. 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Wonderful Future For Canada

Lord Peel Sees Great Things In Store For This Country

"We see developing here a vigorous and varied civilization and we see a people growing with a clearly marked individuality of their own," said Lord Peel, grandson of England's Robert Peel and leader of the Empire Parliamentary Party, just before his departure for the Maritime Provinces. "We have fallen in love with this country and regret to leave these fertile plains and the bright stimulating air. We all foresee a wonderful future, even beyond the visions of the first pioneers. We believe the country is moving along right line, and it is only a matter of time until the ambitions of the most far-seeing are accomplished."

Lindbergh Going To Turkey

Mrs. Evangeline Lindbergh, according to a dispatch sent by the Constantinople correspondent of the Egyptian Daily newspaper Ahram, has said that her famous son, Col. Charles A. Lindbergh, intends to visit her shortly in Turkey. The two will make an aerial journey to Syria and Jerusalem, to visit the holy places of Christianity.

End Season's Work

Freighters From Hudson Bay Return To Nova Scotia Ports

All freighters being used in Government work on Hudson Bay, have left for Nova Scotia ports for the winter months, according to wireless despatches received at the Department of Marine. The tug Dainty and the steamers Canadian Voyager and Odile, left Fort Churchill recently. The vessels have been used in carrying material to be used in the construction of the harbor.

10 minutes ago-

How many people you know who end their colds with Aspirin! And how often you've heard of its prompt relief of sore throat or tonsillitis. No wonder millions take it for colds, neuralgia, rheumatism; and the aches and pains that go with them. The wonder is that anyone still worries through a winter without these tablets! They relieve quickly, yet have no effect whatever on the heart. Friends have often told you Aspirin is marvelous; doctors have declared it harmless. Every druggist has it, with proven directions. Why not put it to the test?

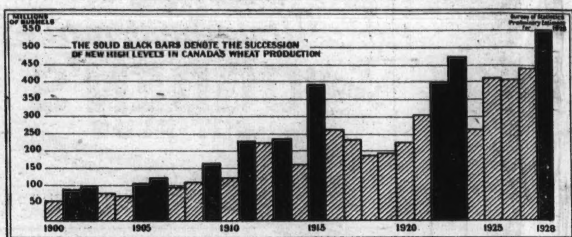

Aspirin is a Trademark Registered in Canada

Canada's Rise To Eminence As a Wheat Producing Country Makes a Fascinating Study

Canada's rise to eminence as a wheat-producing country, with the phenomenal crop of 1915. The 1915 harvest was literally a "wonder" crop, and established a new mark which stood as the record for a longer period than any other crop since the opening of the century. Finally, in 1922, the output of 1915 was exceeded, and in 1923 another heavy harvest set the record which held good for the following four years. Now, according to the best information, the 1923 crop has well exceeded the coveted figure of 500,000,000 bushels, and the Dominion has

in almost every other year, culminated with the phenomenal crop of 1915. The 1915 harvest was literally a "wonder" crop, and established a new mark which stood as the record for a longer period than any other crop since the opening of the century. Finally, in 1922, the output of 1915 was exceeded, and in 1923 another heavy harvest set the record which held good for the following four years. Now, according to the best information, the 1923 crop has well exceeded the coveted figure of 500,000,000 bushels, and the Dominion has

vest amounting to roundly 550,000,000 bushels.

The successive stages by which Canada has achieved its present immense volume of wheat production furnish one of the "fascinating" pictures of Canadian development. It is hard to realize that the wheat crop for the opening year of the twentieth century fell below 60,000,000 bushels and that not until 1905 did the harvest for the first time reach 100,000,000 bushels. In the ten years following 1905 new records were reached

000 bushels, and the Dominion has for the eleventh time since 1900 surmounted all previous high marks for wheat production.

"From now on Canada can scarcely expect to establish new levels in wheat output as frequently as in the earlier years of the century, but it is assured to know that the ultimate wheat-producing capacity of the Dominion, as estimated by the experts who have most carefully studied the country's land resources, is yet far from being attained.

South African Pleased With Canadian Farms Believes Dominion Offers Better Opportunities Than Other Countries

"Taking the British harvesters' scheme as it affects me personally, I vote it a success," declared Geoffrey Harris Mitchell, who was in Winnipeg on his way back to South Africa after six weeks' experience as a harvester in the district near Brandon, Man. "I wish to state right here," he said, "that I am absolutely satisfied with the treatment I received from the various farmers I worked for, and that the food provided me in all cases was really excellent and that the general conditions of farm life, at a time when every household was of a necessity overtaxed, compared decidedly favorably with farm conditions I have experienced in South Africa.

Referring to the complaint of other British harvesters, Mr. Mitchell said that they may not have been so fortunate, some of them, in choice of territory and work as he was, but at the same time most of the men had exactly the same chances he had. "In the district I was in," he stated, "I can vouch that there was an actual shortage of harvest help, many farmers leaving portions of their crop lying on the ground unstooked simply because they were unable to procure the necessary labor."

His reply to the question, "Why are so many of the British harvesters

returning home?" was that many of them were simply homesick and had been ever since they lost sight of England. "Perhaps this is not so hard to understand when one takes into consideration the fact that many of these men have spent few night away from their homes during their whole life up to now." There was, too, the inevitable percentage of "went works" backed up by agitators.

"To the man who has it in him to put old associations aside for the time," said Mr. Mitchell, "and concentrate on adapting himself to a new country, and in many cases on overcoming that even bigger obstacle to farm settlement in any country, namely, the change from a life spent in an industrial centre to that of a field worker in the great outside of Canada, the British harvesters' scheme offered a good jumping-off place to establishing such a man as a settler on his own farm."

Mr. Mitchell, who spent a year on a sheep farm in the Eastern Cape province of the Union of South Africa and two years as a trooper in the British South African Mounted Police of Rhodesia, was impelled to come harvesting to Canada, when, on a holiday in England, he saw the harvester excursions advertised. He came to Manitoba by the Canadian National Railways and was helped by them in finding a place. Although he is returning to police duties in Africa, he is of the opinion that Canada offers a better opportunity to the average man than does South Africa, and possibly also Australia.

Sounds Logical

"Mother," she began, "what does trans-Atlantic mean?" "Across the ocean," replied the mother.

"Then, does 'trans' always mean across?" "Yes, it does, always." And the mother added sternly, "If you ask another question tonight, I shall send you to bed."

The second silence lasted about three minutes. It was broken at last by a plaintive, small voice which commented, "Then I suppose transparent means a cross parent!"

Inquisitive Kid: What's a dachshund, Dad?

Dad: A 1-story dog with Charleston legs. Now go to bed.

"How do you like being married?"

"Awful. I am not allowed to smoke, drink or go out at night."

"You must get very bored."

"I am not allowed to do that either."—Vikings, Oslo.

An Old Welsh Legend

Story In Connection With Devil's Bridge Is Amusing

An amusing legend is told in connection with the Devil's Bridge at quaint old Aberystwyth, in Wales. The story is that Megan Llindanuch was troubled one day to know how to bring her only cow across the chasm. The devil came along and offered to bridge the gorge if, in return, he might have the first living thing that crossed it. Megan agreed, and the devil expecting that Megan would be the first to pass, made the bridge. But Megan was foxy. Taking a piece of bread from her pocket, she threw it to the other side of the bridge and sent her dog after it. The devil took his defeat very sensibly and left his bridge there for future generations of the clever Welsh.

Underlying Cause Of Canada's General Prosperity Due To Development Of Agriculture

Every year the Dominion Government votes the sum of seven million dollars in aid of agriculture. Care is taken to expend it in the most economical way possible to meet the demands of the industry, demands which cannot rightly be met by any other organization, this annual expenditure representing about 41 per cent. of the gross agricultural revenue. In other words, the cost of administering the Dominion Department of Agriculture is approximately 41 for every \$1,000 of gross revenue. Based on the gross agricultural wealth of the country in 1927, the Government expenditure amounts to .08 per cent, or \$8 for every \$10,000 of our agricultural wealth. No one conversant with the importance of agriculture to Canada questions the propriety of Parliament voting this annual grant in aid. But far too many people do not understand how great is this importance of agriculture, and still less are they aware of the actual value of the work conducted by the Dominion Department.

Agricultural returns are the barometer of Canada's national prosperity. This is generally recognized by those who have the wider vision; those who realize that the rise and fall of business generally is due largely to one main factor—the crops. Weather conditions, crop reports, crop estimates and, in fact, everything pertaining to crops are closely followed by the leaders of our industrial enterprises, as closely, indeed, as they are by the farmers themselves. Canada has had many problems in connection with her agriculture that have been peculiarly and particularly her own. She has solved many, and an army of workers under the direction of the Dominion Department is working night and day to solve more and more of them. Those who are responsible for the directing of these workers are probably the only people who fully realize the enormity of the task.

The Dominion Department of Agriculture is made up of eight branches: viz., The Experimental Farms; Dairy and Cold Storage; Health of Animals; Live Stock; Seed; Entomological; Fruit and Publications. These are the main divisions with, in addition, the seventeen hundred projects under investigation at Experimental Farm. The responsible heads administer the numerous regulations under the following Acts of Parliament: Animal Contagious Diseases; Cold Storage; Dairy; Dairy Produce; Feeding Stuffs; Fertilizers; Fruit; Live Stock and Live Stock Products; Hay and Straw; Meat and Canned

Meats; Root Vegetables, and Seeds. Prominent work covers a very wide field, and to those carrying on the work may be given the credit for the development of co-operative marketing. By this means, together with the standardization of products, Canada has been enabled to compete successfully in the open world markets.

That the experimental and investigational work carried on by the Department has literally made Canadian agriculture is not putting the case too strongly. It has resulted in the extension of our northern agricultural boundary, enabled farmers to grow crops in certain districts where crops never grew before, increased the yields, controlled destructive pests, and, in short, has made agriculture the industry that is and must ever be the bedrock of the national prosperity. All classes benefit from the wealth drawn from the soil, and the underlying cause of Canada's general progress and prosperity is the satisfactory condition of her agriculture. This condition, too, the Dominion Department is at all times striving further to develop and improve.

Improve Quality Of Poultry

Illustration Stations Promote Interest In Poultry Raising

The illustration stations operated under the direction of the Experimental Farms System in the prairie provinces and in British Columbia are helping very materially to arouse greater interest in the breeding, feeding and housing of poultry. In his report for last year, published by the Department of Agriculture, at Ottawa, the chief supervisor of these stations shows that each year improvements are being made by the various operators of the stations in the care and housing, and in the quality and care of the breeding stock. Some of the operators who permit parts of their farms to be used for these stations have been building new up-to-date houses, while others are remodeling old ones in conformity with modern ideas with respect to lighting, ventilating, and general comfort. By careful breeding and selection the flocks are being improved in egg laying qualities. The stock they are able to produce are readily sold to farmers in the surrounding districts served by the stations. Last year there were distributed from the stations 600 cockerels, 682 pullets, and 1,528 settings of eggs from breeding stock that had produced more than two hundred eggs per year.

Chinese Buy Many Records

Phonograph Market In Hong Kong Absorbs Thousands Every Year

The growing popularity of dancing among the Chinese has resulted in an increased demand for English and American phonograph records, Perry N. Jester, United States Vice-Consul at Hong Kong, informs the Department of Commerce.

Jester estimates that the phonograph market in Hong Kong will absorb from 250,000 to 275,000 records a year, of which about 30,000 are records in the English language or with Occidental music. The larger stores carry stocks of from 6,000 to 8,000 pieces at a time, he says.

City Banker (visiting the farm)—"I suppose that's the hired man." Farmer (who had visited banks)—"No, that's the first vice-president in charge of cows."

"He is looking closely at my Farm-yard Scene. Is he a critic or an estate owner?"—Meggsendortler Blatt, Munich.

At the Christening of the Duchess of York

A charming photograph of H.R.H. the Duchess of York, taken upon her arrival at the Clyde with the Duke of York, to christen the newest of the Canadian Pacific Duchess liners. The Duke, speaking after the ceremony, said that the occasion was the first time a member of the Royal Family had sponsored a merchant vessel. The progress of their Royal Highnesses through the yards was headlined in Britain as a "tour of cheers." The Duchess insisted on seeing everything

connected with the vessel herself, crawling under the keel and making a very thorough inspection. At luncheon after the launching, Sir George McLaren Brown, European general manager of the Canadian Pacific, presented her with a souvenir copy of a booklet showing pictures of the launches of the four Duchess steamships, including on the front page a photograph of the launch by Her Royal Highness of the vessel which carries her name.

Dress All Your CUTS & SORES WITH ANTISEPTIC 7am-Buk

WORLD HAPPENINGS BRIEFLY TOLD

Choked by a piece of carrot which lodged in his throat, John William Black, of Ogdensburg, N.Y., died in hospital at Prescott, Ont.

E. W. Beatty, president of the Canadian Pacific Railway, recently celebrated his last birthday. Mr. Beatty was born in Thorold, Ont., on October 16, 1877.

Using nitro-glycerine, yeggmen blew open the safe in the post office and store operated by M. S. Schroeder, at Walsh, Alta., and got away with about \$5,000 in cash.

Lord Birkenhead, secretary of state for India since 1924, has resigned from the Baldwin cabinet in order to follow commercial activities in London.

A trainload of 1,500 head of cattle owned by a group of ranchers from the Peace country, reached Edmonton recently over the Edmonton, Dunvegan and British Columbia Railway.

Lieut.-Col. A. L. Young, of Souris, Man., officer commanding the second reserve regiment, 13th Manitoba Dragoons, was elected president of the Canadian Cavalry Association for the incoming year at the concluding session of the 13th annual convention at St. John, N.B.

Whether the wheat pools of the west are liable to income taxation will be the subject of a big case in the exchequer court this fall. The matter has long been in dispute, and while the tax has been paid, it has been under dispute. The Saskatchewan Co-operative Company's case is to be made a test, the decision in which will apply to the other pools, says the Ottawa Citizen.

"What are you doing with that red lantern?" "Oh, I just found it. Some careless fellow left it beside a hole in the road."

Mrs. L. Shephard Tells How Cuticura Healed Her Skin

"My boy five years old had eczema on his thumbs. It broke out in a red rash and soon spread to his hands and arms. It itched terribly and he would scratch until his hands would bleed. He could not stand his clothing to touch his arms, and some nights he could not sleep on account of the irritation. The trouble lasted eight weeks. "I began using Cuticura Soap and Ointment and they relieved the irritation. I continued to treat him and after using one cake of Cuticura Soap and one box of Cuticura Ointment he was healed." (Signed) Mrs. Lorne Shephard, Wilkesport, Ont., Oct. 7, 1927.

Clear the pores of impurities by daily use of Cuticura Soap, with touches of Cuticura Ointment as needed to soothe and heal. Cuticura Talcum is fragrant and refreshing, an ideal toilet powder.

Sample Each Free by Mail. Address: Cuticura Remedies, Dept. 5, P.O. Box 107, Freeport, N.S., Canada. Cuticura Shaving Stick 25c.

Singapore's Huge Floating Dock

First Portion Has Completed Eight Thousand Mile Journey

After a four months' voyage from England, the first portion of the huge floating dock for the new British naval base arrived at Singapore, having completed a journey of 8,000 miles by way of the Suez Canal.

The Singapore dock, when completed, will be the largest floating dry dock in the world and large enough to hold any British warship, weighs 50,000 tons and contains 20,000 tons of steel. It cost \$60,000,000. The contract for completing the dockyard was awarded on September 27, and called for the finishing of the work by 1935. It is estimated that the final part of the project will cost \$37,500,000.

You can look attractive and stylish on less. Learn how to give new beauty and variety to your dresses and add individuality and charm to things around the home by the quick magic of tinting and dyeing. Perfect results are possible only with Diamond Dyes. Each package represents the perfection of 50 years of dye-mapping. They never streak, spot or run. They are real dyes, like those used when the cloth was made.

Diamond Dyes are easy to use. The "know-how" is in the dyes. Fashionable tints appear like magic right over the out-of-style or faded colors. Insist on Diamond Dyes and save disappointment.

"Color Craft," my big new book of dollar-saving hints, will be sent you FREE. Write Mae Martin, Diamond Dyes, Windsor, Ontario.

Senora Alice Cunha Machado was free on a writ of habeas corpus because the Supreme Court listened to her plea that her child did not deserve to be born in jail.

BABY GIRL HAD DIARRHEA WHEN CUTTING TEETH

Mrs. A. J. Murray, Gull Lake, Sask., writes: "Last summer, my baby girl was cutting teeth and became very weak with the effects of diarrhea. I didn't know just what to do for her so she couldn't retain anything. At last one of my neighbors said to me, 'Haven't you any

Dr. Fowler's Wild Strawberry. "My husband went to town and got a bottle, and the very first dose helped her wonderfully, and in three days she was well over the diarrhea and was running around as well as ever." Put up only by The T. Millers Co., Limited, Toronto, Ont.

Practicability Of Thrift

True thrift is not a theory; it is actuality! It is a principle that is applied constantly in the practical problems of life. It brings immediate results. One dollar saved is an actual, not theoretical, step forward.

An Oil Of Merit—Dr. Thomas' Electric Oil, is not a jumble of medicinal substances thrown together and pushed by advertising, but the result of the careful investigation of the healing qualities of certain oils as applied to the human body. It is a rare combination and it won't keep public favor from the first. A trial of it will carry conviction to any who doubt its power to repair and heal.

Nothing Else But

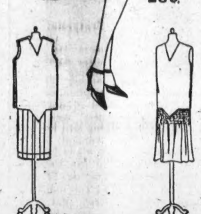

A well-known comedian is very proud of his three beautiful and talented daughters.

One day an acquaintance and admirer of the comedian was talking to him about the family.

"A funny thing," he remarked, "you have nothing but those three girls." The comedian looked at his friend in astonishment.

"Nothing but girls?" he echoed. "Why, my dear old chap, I wish you were right. As it is, we've nothing but boys all over the place."

Minard's Liniment—Popular for 50 years.

Flattering Neckline

The chic femininity of the mode is smartly expressed in simple dress of printed sheer velvet in combination with georgette crepe. The long-waisted bodice showing dip-in-the-front, combines with shirred upper edge of skirt, to create the desired flat hip-line. The shaped collar of Vionnet neckline, that falls perfectly flat in jabot effect, is flattering new fashion, and is made of georgette crepe, which is also used for tiered flounces of long tight-fitting sleeves. Style No. 289 can be had in sizes 16, 18, 20 years, 36, 38, 40 and 42 inches bust. It is dainty in georgette crepe, crepe Elizabeth, crepe Roma or sheer plain velvet for afternoon. Crepe satin, canton-faille crepe, wool crepe and crepe de chine are excellent fabrics to choose for serviceable wear. Pattern price 25 cents, in stamps or coin (coin preferred). Wrap coin carefully.

OCTOBER 28

PAUL'S LAST JOURNEY TO JERUSALEM

Golden Text: "Remember the words of the Lord Jesus, that He Himself said, 'It is more blessed to give than to receive.'"—Acts 20:35.

Lesson Acts 20:1-17; 2 Cor. 13:11-12.

Devotional Reading: John 10:17.

Explanations and Comments

Paul Reviews His Ministry Among the Ephesians, Acts 20:17.—Paul had sailed past Ephesus, for he could not take the time to stop there or elsewhere in the province of Asia, as he was very desirous of being in Jerusalem for the day of Pentecost. But when he reached Miletus he sent a messenger to the elders (or presbyters, Revised Version) at Ephesus, bidding them come to Miletus to say farewell. In the churches he founded Paul had established the offices of deacons and elders after the model of the Jewish synagogue. Paul speaks sometimes of elders and sometimes of bishops using the latter term, which means literally overseers, or superintendents, in churches where there was a large Gentile element.

"Ye yourselves know, from the first day that I set foot in Asia, after what manner I was with you all the time"—thus Paul began his address to the Ephesian elders upon their arrival. The first day that Paul set foot in Asia is recorded in Acts 16:7, but his first preaching there was later, Acts 18:19. He came to Ephesus again on his last missionary journey, Acts 19. "The manner of his life" he proceeds to tell in the next three verses.

Paul first reminded them how faithfully and how humbly he had served the Lord while his heart was filled with anxiety for them and his own life was threatened by the plots of the Jews (see 1 Cor. 15:32; 2 Cor. 1:8-10); and how he had told them all things profitable for them to know, and had taught them in public and in private the essentials of religion, repentance toward God and faith toward Christ. Fear of giving offence to the Jews and therefore of endangering his own life had not prevented him from preaching a crucified Christ and the gospel for Gentiles as well as for Jews.

"Repentance toward God and faith toward our Lord Jesus Christ: there is no other way, but by repentance and faith. First, realize your sins; second, confess to Jesus Christ; and then live as you think you ought to live."

Many mothers can testify to the virtue of Mother Graves' Worm Exterminator, because they know from experience how useful it is.

Static Forerunner Of Storm

"There is a relationship between static and storms. . . . There are storms, it is true, that are accompanied by little or no static. There are other storms, accompanied by static, which are nevertheless difficult to locate because the static appears to come from no definite direction. But as a rule static accompanies a storm and gives in advance of the arrival of the storm definite indication of the direction of approach.

About 350,000 Londoners, of whom nearly 280,000 are women, are employed in hotels, restaurants and domestic service.

Rheumatism

A little Minard's rubbed into parts affected relieves rheumatic pain. Also good for bruises and sprains.

When Noah sailed the waters blue He had his troubles, same as you. For forty days he drove the Ark Before he found a place to park.

Many of Canada's leading social and sporting clubs use Red Rose Orange Pekoe Tea exclusively. The added strength and inimitable flavor of Red Rose Orange Pekoe make it last longer, go farther and taste better. Packed in damp-proof aluminum.

Her Color Went Black. She Was Frightened To Death

Mrs. Welle, New Brighton, writes: "That deadly indigestion and gastritis, caused by constipation made my color go black. I was frightened to death, and I feel your laxative saved my life. I take them every night now for precaution, and do not fear an attack of constipation poisoning any more." CARTER'S LITTLE LIVER PILLS All drug stores—25c and 75c red packages.

ALBERTA PLANS TO AID SETTLERS FROM BRITAIN

Edmonton.—Closer co-operation between the Provincial and Dominion Governments in future immigration work was decided upon at a conference held between Hon. Robert Forke, Federal Minister of Immigration and Colonization, and Premier Brownlee and members of his cabinet.

There will probably result from the conference in the way of definite forward moves, an agreement to bring out next year a number of British women for domestic help, the establishment of training schools in the old country for prospective emigrants to Canada, and the erection of 20 or more cottages in the Lethbridge irrigation district for newly arrived settlers.

All the new policies thus tentatively decided upon will be of a tripartite nature, as between the Alberta, Dominion and British governments. The cost of the various projects will be shared by the three parties, which will in this way be closely linked together in the promotion of selected British immigration to this province.

According to Mr. Forke's information, a considerable number of British women immigrants can be secured as domestic help and it is proposed to give this phase of the question some definite trial during the coming years. The training schools also proposed as a matter of future policy will be established in both England and Scotland. They will be for the purpose of familiarizing likely immigrants to Canada with actual living and farming conditions in this country and will be closely supervised. A great deal can be done in this way, in Mr. Forke's opinion, to give prospective settlers a measure of experience and so to ensure their ultimate success.

The Provincial Government will now consider as part of its future program the building of 20 cottages on Lethbridge irrigated farms, in which farmers newly brought out under the tripartite scheme may be settled.

This will be with a view of getting a regulated flow of settlement. Mr. Forke's visit was part of his itinerary on a Western tour in which he is consulting with all the provincial governments.

New Daily For The Pas

Expect Publication Will Start Early In December

Calgary.—It is expected that the Northern Star, the proposed new daily for The Pas, for which a Canadian Press franchise has been granted, will commence publication early in December. A building is now in course of construction there to house the editorial, business and printing departments: G. M. Bell, president of the Calgary-Albertan Company, is president of the new company, which has been formed to undertake the enterprise, and S. L. Cross, Regina, is vice-president. Associated with them will be P. C. Galbraith, at present news editor of the Winnipeg Tribune, as business manager, and Fred Johnson, mining editor of the Winnipeg Tribune, as managing editor.

Pass Radio Exams

Western Candidates Obtained Certificates Of Proficiency In Telegraphy

Ottawa.—The radio branch of the Department of Marine and Fisheries announces that 18 candidates were examined during the month of September. The following Western candidates were successful and obtained certificates of proficiency in radio telegraphy: Commercial, first class—M. E. D. Jacobson, and J. H. Stow, of Vancouver.

The following have been further examined and have had their existing certificates endorsed for additional equipment:—C. Blacklock, Vancouver; A. R. Boek, and W. J. Pickering, Regina, Sask.

Coal tar, from which dyes are made, is the essence of the plant life that flourished millions of years ago.

N. W. U. 1756

Heroism At Sea

Harrowing Tale Of Fire Aboard Ship Is Related

Vancouver.—With seven of her crew painfully burned and scalded, the Blue Star Line steamship, "Trojan Star," Capt. G. A. Griffiths, arrived here with a harrowing story of fire on board while the vessel was off the California coast on the night of October 12.

William P. Tension, Hull, Eng., fireman aboard the ship, was burned to death and his body buried at sea. The fire broke out at 8:30 p.m., October 12, when an oil jet burst in the stokehold, trapping eight men of the engine room force in a wall of flame that sprang up in an instant.

Second Engineer Sydney P. Houston and Fireman James, according to the ship's officers, were chiefly responsible for the safety of the engine room crew.

Seeing that the way to safety on deck was barred, Houston led the men into the bilges under the boiler. The flames roared above them and for three hours and thirty minutes they lay there in oil and water with the plates growing hotter and the water in which they lay steadily approaching the boiling point. James by his cheery conduct and singing of songs, aided his comrades while awaiting rescue. Tension went temporarily insane from the heat and rushed back to the engine room again, where he succumbed.

Only an act of providence stopped the flames. A big steam pipe in the stokehold burst, pouring a dense cloud of steam into the compartment, finally smothering the fire and permitting the deck crew to reach the imprisoned engine room crew, who were smeared from head to foot with fuel oil, soaked in water, blistered and partly pained.

They are all recovering.

Wins Mayoralty Contest

W. H. Malkin Is Elected Mayor Of Greater Vancouver

Vancouver.—With a majority of 1,666 votes, W. H. Malkin, pioneer wholesale merchant, was elected first mayor of the amalgamated city of Greater Vancouver, comprising Vancouver City, Point Grey, and South Vancouver municipality, in the civic elections. Mr. Malkin defeated Mayor Louis D. Taylor, six years chief magistrate of Vancouver.

The vote in the thirty-nine polls was: Malkin, 18,733; Taylor, 17,067. Louis Rubinowitz another mayoralty candidate was never a factor in the contest. He polled but 207 votes. Mr. Malkin's term of office will be two years.

B.C. Settlement Plan

Has Been Exaggerated

Reports Being Circulated Are Causing Government Some Trouble

Victoria.—Letters are pouring into the Government offices here from people who would avail themselves of the land settlement offer recently announced by Premier Tolmie. However, many reports concerning how far British Columbia will go to aid the settler have been exaggerated and these are causing trouble.

Some reports stated that the government would give 40 acres of cleared land, a log cabin and \$2,000 in cash, but the Premier denied this in a statement issued.

Premier Attends Luncheon

Speaks To Delegates Of Empire Parliamentary Association On Return To London

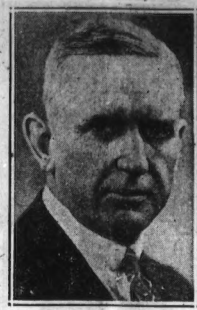

London, Eng.—Premier Mackenzie King, of Canada, attended the luncheon tendered by the British Government to the delegates of the Empire Parliamentary Association who have just returned from their tour of Canada, and are about to disembark, some of them to return to distant parts of the Empire.

Premier King said he was sure the delegation while in Canada had learned how Canadians had the greatest possible pride in British traditions and institutions.

Horned Cattle Barred

No horned animals may be shown at the Brandon fat stock show in March, 1926. Such is a recent ruling made by the executive, and no exception in the matter is to be permitted.

TO ENCOURAGE SETTLEMENT

J. N. K. MACALISTER

Assistant Commissioner, Department of Colonization and Development, Canadian Pacific Railway, who says that the newly organized Colonization Finance Corporation of Canada Limited is the most important step ever taken jointly by Canadian private land-owning bodies in the effort to encourage agricultural settlement on a sound basis. Millions of acres are involved and the scheme is being developed in conjunction with the Canada Colonization Association, of which Mr. Macalister is a director.

Take Up Residence In London

Mr. and Mrs. Tunney Reported To Have Leased House In Mayfair

London.—Mr. and Mrs. James Joseph Tunney, according to report, have taken the lease for a year of a house in the Mayfair quarter of London where after their honeymoon it is said they intend to form a literary salon.

Harry Preston, English sportsman and friend of the retired world heavyweight champion, states that he still expects to see Gene under the ring again. He said that he had told Tunney that there remained one record for him to break, referring to the three years ago when Jack Dempsey fought four English heavyweights in succession at a boxing tournament.

Air Phones A Success

London, Eng.—The Cross Channel Air Company announces that successful experiments had been made whereby passengers called their city business houses by wireless telephone while flying as high as 12,000 feet.

HIGH COMMISSIONER FROM BRITAIN

This photographic portrait of Sir William Clark, first high commissioner from Great Britain to Canada, who arrived recently at Ottawa, was made this summer in London, by Miss Keene, Fellow of the Royal Photographic Society. Mrs. Keene, who lives in Oakville, has done photographic portraits of many distinguished people in America, Europe and Africa, and has also made photographic studies of national types in many parts of the world.

Radio Station Opened

Canada's Largest Broadcasting Station Operating At Winnipeg
Winnipeg, Man.—Official opening of the new broadcasting station of the Manitoba Telephone System, the largest in Canada, took place at the Sherbrooke street studio.

Hon. W. R. Clubb, Minister of Telephones, pressed a button which immediately set in operation the big 5,000-20,000 watt transmitter situated at the Agricultural College, eight miles distant.

The power of the new station is more than twenty times that of the old plant.

The program included an address by Premier John Bracken and a band concert by the Winnipeg Salvation Army Citadel Band, under the direction of Bandmaster H. G. Merritt. The official wave length of the station will be 384.4 metres and 200 kilo cycles.

Workman Buried In Concrete

Two Men Victims Of Accident At Cleveland

Cleveland, Ohio.—The bodies of two workmen who were buried alive in a 105 foot hole under a fifty ton fall of fresh cement at the Union Depot site here, were cut from the hardened mixture after a desperate 12-hour struggle.

The two men were Patrick Toolis 29, and Patrick Cleary, 27, both of Cleveland.

Toolis and Cleary were working at the bottom of the hole in which concrete was to be poured. A few feet away was another pit into which concrete had been poured a short time before.

Under the pressure of the tons of concrete, the retaining walls of the second gave way. The concrete tore through four feet of earth and poured down into the two victims.

C.P.R. Head Celebrates Birthday

Montreal.—E. W. Beatty, president of the Canadian Pacific Railway, has celebrated his 51st birthday, on October 16, 1877. He entered the service of the company of which he is now chairman and president in 1901, as assistant to the general counsel. In 1914, he became vice-president, and in 1918, president, succeeding to the post made vacant by the death of Lord Shaughnessy.

Returns To California

Riverside, Cal.—Jessie Ghrak, sister of Sanford Clark, 15-year-old accused of her uncle, Gordon Stewart Northcott, alleged killer of boys on his Riverside chicken ranch, has arrived here from Canada.

LOOK FOR BIG GOLD RUSH IN NORTH ONTARIO

Winnipeg, Man.—Valuable gold discoveries made during the past summer and this fall at Crow River by the Northern Mineral Mining Exploration Company probably will bring a stampede of prospectors rivaling that to Red Lake a few years ago, Capt. H. A. Oakes, operating manager of the company, states. Crow River is near the Patricia mining field in Northern Ontario.

At least 200 prospectors are awaiting their chances to make Crow River before the freeze-up, and scores are intending to be there in the dead of winter. The more fortunate will go by airplane, but the majority will take the next best means of getting to their destination — by canoe or dog team.

"We have every proof that the Crow Lake strike is a good one," Capt. Oakes stated, "and our groundmen, including engineers and other technical experts will be on the scene, possibly the entire winter."

The company will continue to carry on operations this winter by plane, although this branch of its service will not function in any other territory but Ontario.

The machines have been brought to Winnipeg for housing during the winter, and four more Pulkers and Pulkers will be flown here by the end of the week. Captain Oakes and Al Cheesman, chief pilot, brought two of them here the beginning of the week.

The plane that sunk at Chesterfield Inlet on the Hudson Bay recently has been salvaged and will be shipped here in about another month. It will have to remain at Churchill until freeze-up as the only means of transportation to the railway is by tractor. The crew will come also.

All planes which operate this winter would be equipped with skids, Captain Oakes said, as there would not be facilities for machines with wheels.

Offered Appointment

Sir Lomer Gouin May Accept Lieutenant-Governorship Of Quebec

Ottawa.—The Citizen publishes the following: "Although he has not officially accepted, it is expected here that Sir Lomer Gouin will respond to the offer of the lieutenant-governorship of Quebec when it becomes vacant next January on the expiration of the term of Governor Perreault. Many months ago the prime minister wrote a letter to the erstwhile minister of justice, expressing the view that he should round off his career by accepting the lieutenant-governorship of the province."

Memorial Day For Celebrated Explorer

Norwegian Government Will Honor Memory Of Roald Amundsen

Oslo, Norway.—The anniversary of the discovery of the South Pole by Roald Amundsen, in 1911, will be celebrated on December 14, by the Norwegian government as a memorial day for the famous explorer who died in an effort to bring relief to the lost expedition of General Nobil. Besides the extensive celebration in Norway, Norwegians all over the world will be informed of their government's decision to enable them arrange other commemoratives.

Liquor Revenue Helps

Toronto.—The Evening Telegram says that only the sale of \$8,000,000 worth of liquor has saved the Ontario government from facing a deficit on the year's operations, and that a considerable portion of the liquor revenue will go to balance the expected \$2,000,000 shrinkage in the succession duties taxes.

Typhus In The Ukraine

London, Eng.—An Exchange Telegraph despatch from Higa reported 10,000 cases of typhus in the Ukraine, with many deaths. Schools and moving picture houses were closed. Provisions and medicine were needed urgently, the despatch said.

Arcosies of Magic Sails

"Bus" Bear was the first shipment to be handled by the Canadian Pacific Express Company over the Montreal-New York Airway. The general view is of the St. Hubert airport, Montreal, showing some of the planes engaged in air transport. Inset is a close up of one of the cabin monoplane more generally used.

"For a dip into the future, far as human eye could see,
 Saw the vision of the world, and all the wonder
 that would be;
 Saw the heavens filled with commerce, argosies of
 magic sails,
 Pilots of the purple twilight, dropping down with
 costly bales."

As he watched the very recent departure of the first airplane to take off on the regular daily express service between Toronto, Montreal and New York, T. E. McDonnell, president and general manager of the Canadian Pacific Express Company thought that in these lines, "anyone had envisioned the present age, when 'winged messengers of peace and commerce cross the imaginary line unchallenged'." T. E. McDonnell himself has a vision of the future when the travelling and shipping public will have a greater "air-mindedness" and the service which his Company has pioneered will have developed into an economic factor of tremendous proportions. To just what proportions the air express service will be developed immediately Mr. McDonnell would not commit himself, but "air transportation must be seriously taken into account if one would keep abreast of the times" he said. At present regular air express service is maintained by the Canadian Pacific between Rimouski, Quebec, Montreal, New York, Ottawa and Toronto in the east and Winnipeg and Calgary in the west, and these routes are very much appreciated and patronized.

The views of the president of the Canadian Pacific

at a time when air events and features are filling the columns of the daily press are not without interest. "Aviation as a factor in commercial transportation has arrived and henceforth must be reckoned with on that basis" Mr. Beatty recently stated. "We have watched its development with keen interest, and while it is not possible clearly to see just in what direction or how far progress may be effected in the near future, it has already taken its place as one of the major transport agencies. Whatever may happen in the distant future, it seems to me that at the present time there is little or no prospect of aviation assuming a seriously competitive attitude towards present day modes of transport. It is rather as an auxiliary service to railroads and steamships that it is likely to function for some time to come. The Canadian Pacific, he added, has already recognized this fact by the establishment in conjunction with the Government Mail service, of an air express service and upon the success of this service will hang future developments as far as this Company is concerned. In this connection, as throughout its history, the Canadian Pacific is doing a pioneer work in Canada. We are closely watching the development of aviation in the belief that Canada with its widely scattered centres of population offers a particularly promising field for its employment."

"Air transport is, of course, faster than any other and although the dire deviltry of some reckless, stunt pilot resulting in injury and loss of life has earned front page prominence on occasion, it is safer than automobile transport."

"Argosies of magic sails" is not a distant vision

CHAPTER IV.—Continued.

In appearance the champion very much resembled an ape. His bullet-like head was close cropped. The small piglike eyes were deep set under overhanging, beetling brows, and the nose was flat like a negro's. His lips were thick with a repulsive twist that gave his face a sinister look. His massive jaw was purposely left unshaved to rasp the tender skin of his opponent's shoulders in the clinches. His enormous barrel-shaped chest was covered with a thick growth of hair. His shoulders were broad and his disproportionate long arms, heavily muscled, terminated in two thick ham-like hands. He gazed confidently at Donald's corner.

A pasteboard box containing the gloves was tossed to the centre of the ring. There was a stir as the announcer pushed his way through the ropes. Andy crossed the ring to examine the champion's hands for tape and to test thoroughly the new gloves for any trace of sewed in shot or location that would cause the eyes to smart. One of Garrieau's seconds was making a similar examination in Donald's corner.

A big man in a wide-brimmed hat, with a mackinaw coat over his arm, came walking down the steps of the arena. The look of astonishment on his face gradually gave place to one of joy. He ran to the ringside.

"Donald!" he shouted joyously, as he sprang through the ropes. With a thrill of pleasure Donald held out his hand to Jack Gillis. The big man's face was beaming. "Just got in," he said. "Bin lookin' all over town for you! I come to the fight and—holly mackerel!—here you are one of the fighters!"

Andy noted the glad look in Donald's eyes and he spoke sharply to Donald's seconds, who were for ordering the boisterous visitor out of

the ring. The word "psychology" was foreign to Andy, but he knew that Donald's mind had for a moment drifted away from the fight. Donald was surprised to see Douglas greet Gillis warmly as the big man left the ring.

"I have two good friends in the audience, anyway," whispered Donald to himself.

Andy leaned over him, talking in a low voice, giving him comfort and advice. "E'll try right along, Donnie, to get your goat by cursing and using vile language, but don't listen 'im, and don't lose your temper. 'E fights with 'is chin tucked in the 'ollow of 'is left shoulder and 'is neck muscles rigid. It's mighty 'ard to land on 'is jaw with a right. Now the first round," Andy went on, "you just jab 'im light with your left; don't 'it 'ard, just a good snappy punch. 'E'll think you 'ave no sting in it, and the next round 'e'll get careless and let you 'it 'im so's to get a punch. Of course, if you see a good opening, let fly with all you 'ave, but 'e won't open up 'until 'e tries you out a bit. Watch the dirty blighter in the clinches; 'e'll foul you if 'e gets a chance. Another thing: this is to be twenty rounds, so take your time. Now 'is 'everything clear to you, Donald?"

"Yes, Andy."

Andy patted Donald's bare shoulder affectionately.

The contestants stood in their corners as they were introduced. The referee beckoned them to the centre of the ring for instructions. As Donald slipped the enveloping bathrobe from his shoulders and stepped forward, a murmur of admiration swelled from the crowd. His lean torso and broad shoulders showed to advantage in the bright light. The long, flowing muscles rippled under his skin when he moved, like those of a panther. Loud applause came from all over the arena. Garrieau, thinking the ovation was for himself, turned and ducked his head with a motion that was intended for a bow.

A rough voice near the top shouted: "Aw! that wasn't for you, you big stiff!"

The judge and the dealer turned and looked at each other. The eyes of the latter seemed to say, "I told you so." The judge smiled and nodded.

A fat man, who could not have been more than thirty-five years of age, yet with rolls of fat at his waist-line, a bulbous nose and florid face, lit savagely on a big cigar. "By gad!" he ejaculated, "that man is perfect." There was a look of admiration and envy in his red-rimmed eyes. Thus do men admire the strong, well-kept body of the athlete, even though their own physical self has degenerated to mere paste.

"Two to one that Garrieau wins inside of ten rounds!" shouted a voice. Douglas covered the bet at once. "Now, men," instructed the referee briskly, "this is to be for twenty rounds. You are to fight clean breaks. You can hit with one arm free, but you cannot hold with one and hit with the other. When I say 'break,' I want you to break at once and step back. Do you understand fully? Good! To your corners."

Donald glanced at his friends, who sat with their eyes upon him. He felt Andy's hand upon him gently stroking his arm, yet he could not suppress the trembling in his limbs. "Everything's all right, Donnie," whispered Andy softly.

The gong rang.

Garrieau assumed the crouch Andy had predicted, his chin resting in the hollow of his shoulder, his eyes seeming to retreat into his skull under the overhanging brows. This was the champion's famous "fighting face."

"Pretty boy, ain't yer?" he scoffed. "I'm goin' to knock you pretty tight down yer throat, you—" he cursed. Donald snapped a light left to the ugly face and danced out of range. The champion's thick lips parted in a fenshish grin. "My, mamma's nice boy has a terrible punch!" he cried. Donald continued his dazing footwork, keeping the champion in pursuit and contending himself with occasional left-hand jabs that kept his opponent's head rocking. He shot glances at intervals to his corner for instructions from Andy, who nodded his head in approval of his tactics.

The round finished in the challenger's favour by a wide margin on points. The champion had not landed a single effective blow during the round.

The action of the first round caused Donald to forget his nervous-

ness. Andy crowded between his knees and gently massaged his body, all the while speaking words of commendation and counsel.

"Now that you find that you can reach 'im easily with your left, watch me for signals. If I see that 'e's openin' up, I'll give you the sign to shoot your left with all you 'ave. If he swings again with 'is left, try for 'is broad back. You understand me, Donnie?"

"Easiest thing 'I've picked yet," chuckled the champion as he came to his corner.

"He may be stalling," cautioned his evil-faced manager.

"Tut!" grunted the champion. "I can take all he has in that left and never feel it. I'm goin' to open up on him de last part of de next round."

The gong rang for the second round.

Donald caught a glimpse of Purcell's face as he crouched in the opposite corner. Such a look of vicious hate shot from his one gleaming eye that Donald shivered.

The rough element began to boo Donald for his running tactics. Some fans feel that they are being cheated out of the price of admission unless they can witness the spectacle of two boxers slugging it to the point one goes down. Science counts for nothing with this small minority.

"Whadda ya think this is, a marathon?" they shouted.

"Powder-puff punch!" derided another.

Garrieau suddenly tore in, letting loose a terrific strike that would have stopped the bout right then if it had landed. From a clinch Donald looked to his corner. Andy went through the motions of shooting a straight left, Donald nodded.

"Powder-puff punch!" again shouted the disgruntled fan.

"Did ya hear that?" hissed Garrieau, twisting his mouth into an apish grin. "Yo can't hit hard enough to break an egg. I'm goin' to fix dose test' for you now." He leered brutally as he tore after Donald, discharging the full force of the belittled left.

Donald stopped abruptly in his flight and shot a lightning left across to his pursuer's jaw. The champion saw it coming, but too late to block it. He threw his body into reverse, robbing the blow of a great deal of its force; yet enough was left to send him reeling back to the ropes, his head whirling and his knees wobbling. With a roar the spectators came to their feet as one man. The gong saved Garrieau.

The crowd gave Donald a deafening ovation as he walked to his corner. He looked for his friends and saw Douglas and Gillis locked in an embrace and dancing madly in the narrow aisle.

(To Be Continued.)

A LAUGHING BABY IS A GREAT JOY

What can give more joy in the home than a laughing, happy baby. The well-chill baby is happy and bright with his tuneful gurgle and happy laughing eyes. It is only the sickly baby who is not a laughing baby for it is the little one's nature to be happy when well.

Mothers, if your baby is cross, if he cries a great deal and no amount of attention seems to make him happy, give him a dose of Baby's Own Tablets and he will soon be well and ready to radiate that happiness through the home again.

Baby's Own Tablets are a mild but thorough laxative. They regulate the bowels and sweeten the stomach and thus banish constipation and indigestion; break up colds and simple fevers and correct those troubles which accompany the cutting of teeth and in doing those things—and doing them well—they make baby happy and keep him happy. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

"And how do you get on with your wife?"

"I've a splendid working arrangement with her. In the forenoon she does what she wants, and in the afternoon I do what she wants."

Headache? Relieve with Minard's Liniment.

Mistress: "I see that another soldier has called for you, Mary. I thought you had only one sweetheart!"

Cook: "Oh, no, mum; two. You see, one's regular and the other's a reserve."

Little Helps For This Week

"Let us therefore come bodily into the throngs of grace, that we may obtain mercy, and find grace to help in time of need."—Hebrews iv, 16.

"Of what an easy, quick access. My blessed Lord, art Thou how suddenly."

May our requests Thine ear invade! To show that state dislikes not easiness.

If I but lift mine eyes my suit is made; Thou canst no more not hear than than Thou canst die.

—George Herbert.

Prayer is a key which, when turned by the hand of faith, unlocks all God's treasures.—Hannah More.

Relieves Asthma At Little Expense. Thousands of dollars have been vainly spent upon remedies for asthma and colds, if ever, with any relief. Dr. J. D. Kellogg's Asthma Remedy, despite its assurance of benefit, costs so little that it is within reach of all. It is the national remedy for asthma, far removed from the class of doubtful and experimental preparations. Your dealer can supply it.

The singing Mennon was a statue in Egypt which gave out musical notes when the sun rose in the morning and as it set at night. After the statue was tipped over it no longer sang.

No need to suffer with corns, or to run the risk of paring them. Remove them surely and painlessly with Holloway's Corn Remover.

Excited Person (complaining to postmaster): "And if I don't get better service, I shall give my postal business to someone else."

Minard's Liniment for sprains.

"Have you anything to say, prisoner, before sentence is passed upon you?"

"No, your honor, except that it takes very little to please me."

The Dangerous Age

What is the most dangerous age of a person in respect to accidents? According to the Workers' Compensation Commission, at Sydney, N.S.W., a person of 20 years is in the greatest peril. From that age the accident rate decreases and the safest age is set down at 75 years.

EVEREADY Layerbilt

There's been a revolution in the science of battery building. Eveready has found a way to give you more battery for your money than you ever bought before!

The new Layerbilt principle can be understood by anyone! It simply gives you more current-making elements by packing flat cells like crackers in a box, instead of using many round cells with waste space between.

You actually get the equivalent of a much bigger battery and, of course, it takes much longer to use it up. That's why you should buy Eveready Layerbilts and save money. Now selling at new low prices. Ask your dealer.

RADIO IS BETTER WITH BATTERY POWER.

Stony Plain and District.

IT PAYS TO PAY CASH.

Chas. Chesser, who spent the Summer at Mt. Robson, has arrived back in Stony.

Mr P S Washburn, who was taken some time ago to an Edmonton hospital for a minor operation, is not making as rapid progress toward recovery as his friends would wish.

Mr Werner, agent Norddeutscher Lloyd, is now booking passages for those who intend spending Christmas in the Old Land. List of steamship sailings on page 1.

A new bridge has been installed on the Meridian road opposite the Giebelhauser gate. This is a big improvement.

Card of Thanks.

Mrs Louie Willie wishes to thank all those friends for their sympathy and kindness shown on the occasion of her recent sad bereavement.

United Church Notes.

Arrangements are under way for a mixed choir. This will greatly assist in making services more interesting. Mrs Oatway and Mr Yates will be in charge jointly.

On Sunday last a business meeting was held at Spruce Grove, when some additional members were added to the Church Board.

Regular services next Sunday. We hope to have special music. Come!

The Liberal Meeting.

Hon Chas. Stewart, Minister of the Interior, gave a very interesting address in Wudel's hall last Saturday evening. The speaker touched on a number of subjects which are before the public at the present time, and his enlightening remarks made these quite clear. Mr Stewart had attended a meeting in Calgary, a few days before, of the Provincial Liberal association, and spoke on the new plan proposed, that of combining the present Federal and Provincial constituencies into one, in the interests of greater efficiency. A good-sized audience was present, to hear the address.

Dr Oatway was chairman, and with him on the platform were Messrs. Rae, Mustard, Collison, Driscoll and others, from Edmonton.

Winterburn News Notes

A dance is billed for Winterburn hall tonight, the 25th. Forest's orchestra will furnish the music.

Motorists are complaining of the condition of the road on the Baseline at the Big Bend, a few miles east of the hall. Several accidents have occurred here recently.

Winterburn Hall was filled to capacity the evening of the 17th, when the social and concert under the auspices of St. Joseph's parish was held. The bidding for the favors was spirited and caused much merriment. The vocal and instrumental selections were well rendered, and were received with appreciation by the large audience. The committee is to be congratulated on the success of the affair.

Calendar.

October—
26—Benefit Dance, Holborn Hall.
31—Hallowe'en.
31—Masquerade Dance, Rosenthal School.
31—U. F. dance at Telfordville.
NOVEMBER—
Nov. 2—Inga Councillors' meet in Stony.
2—Val Kulak's Sale, at South Edmonton Beach.
2—Hallowe'en Carnival & Dance, Wudal's Hall.
12—Thanksgiving Day

Spruce Grove News

The Ladies Aid of the local United Church held a very successful chicken supper last evening, in the church building, which was well attended.

The Indian Dept. will hold an important auction sale of Indian lands on Thursday next, Nov. 1. There will be thirteen quarters offered, all north of the Grove.

There will be a joint auction sale of stock and implements on the C C Burns' farm southeast of town, Tuesday next, the 30th.

Our local butcher, Mr MacKean, has invented a new Haggis sandwich, as a sideline on his delicatessen store and butchery. If you want a gastronomic thrill, ask the butcher.

It is understood that the Jack Nicholls' restaurant will change hands next month.

Mr Conrad Fehr, formerly employed at McLeod's store, has secured a position up at Stony Plain.

Duffield Doings.

A very successful silver tea was held at the home of Mrs Percy Faulks, on the evening of Tuesday, October 10th, by the Ladies South of Duffield in aid of the Women's Institute. The sum of \$9.75 was realised. Everybody reports having had a good time.

Mr Washburn held a successful sale Saturday last, for Mr Warren, Tomahawk.

Stony Plain W. I.

The October meeting of the Stony Plain Women's Institute was held Wednesday, Oct. 10, at the home of Mrs J H Lory.

Mrs L Kowensky presented the report of the constituency conference, which was greatly enjoyed by all present.

Mrs R Walton acted as secretary, in the absence of Mrs Michael.

Mrs Gates was to have given an address on Pictures in the Home, but she had not returned from her holidays in time to be present.

In place of this item on the program, an address, Our Dominion from Sea to Sea, as given by Mrs A H Rogers at the biennial convention of federated institutes at Wolfville N.S., was read by the president.

Delightful refreshments, served by Mrs I Umbach and Mrs L Kowensky, brought the pleasant meeting to a close.
